Professional Aeronautics Academy

Thank you for considering PAA as your primary flight training provider! Our primary mission is to make pilots by providing quality ground and flight instruction to our students and fully preparing them to earn their pilots certificate. Simply put, we are a dedicated, professional flight academy that devotes every available resource to our students.

PAA offers private pilot, instrument pilot, and commercial pilot ground school courses. Ground school instruction takes place in a classroom setting and is taught using video, audio, and computer training aids. The flight school courses we offer include: **private pilot (PPL), instrument rating (IR), commercial pilot (COMM), certified flight instructor (CFI).**

Unlike most “small-town” flight schools, PAA offers a very structured approach to its flight training with the use of a well-defined curriculum, including specific syllabi that match the customers training needs. We dedicate 100% of our resources to our students. It's a guarantee that aircraft and instructors will be available 24/7 to meet your training needs.

Getting Started!

Before enrolling, it's highly recommended that students obtain a third (3rd) class physical. Students pursuing a commercial pilot or airline transport pilot certificate **shall** obtain at least a second (2nd) class physical before commencing any training.

When enrolling, students **must** have proof of US citizenship (birth certificate/passport).

Students will receive an identification badge, and should wear it at all times on airport premises. Badges will be returned upon course completion.

Dress appropriately for ground and flight training. For safety reasons, students must wear closed-toe shoes when performing flight related activities.

The only materials provided to the student are those originally listed in the course outline at the time of course purchase. Come prepared with notebook, pens, highlighters, calculator, etc. Pilot materials such as logbooks, kneeboards, and the appropriate charts are recommended but may be purchasable at the pilot store.

Normal academy hours of operation are from 10am to 4pm however each course follows its own time schedule outlined in each course syllabus.

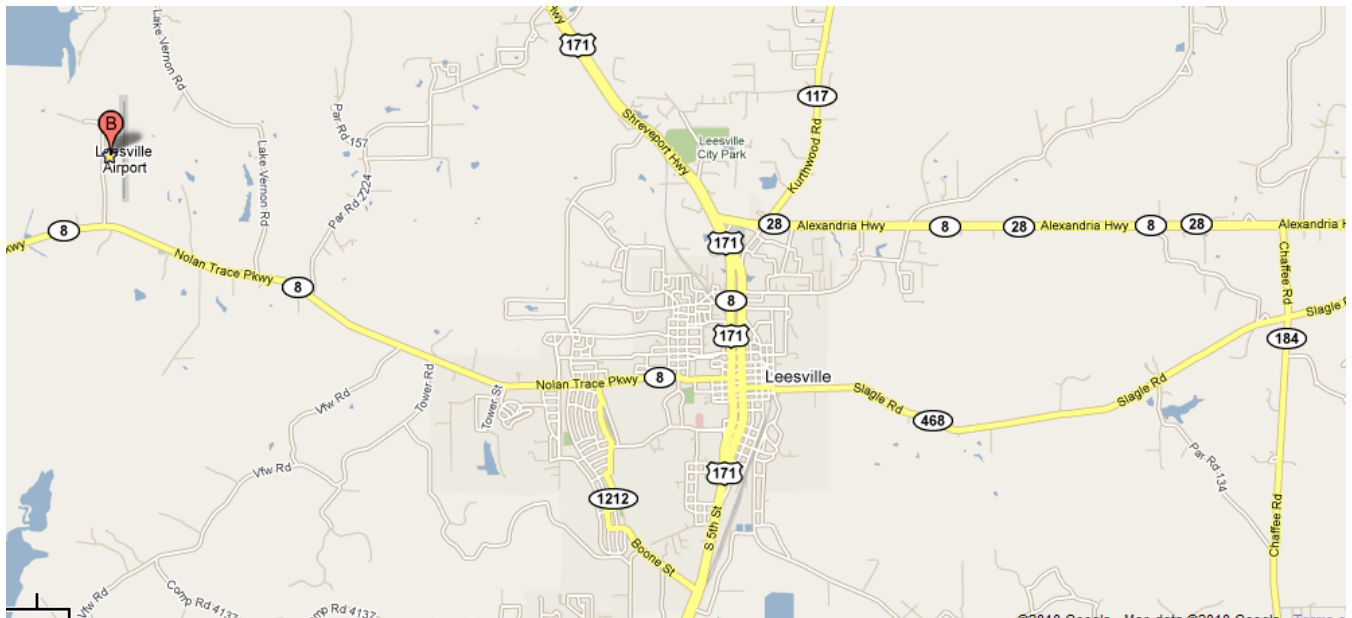

Directions to the Academy:

The nearest airport that serves commercial flight traffic is the Alexandria International Airport (AEX) in Alexandria, LA. The drive from Alexandria to Leesville is approximately 1 hour and depending on student load, we may offer a shuttle service to and from the airport. Feeder flights connect to Alexandria from several major cities including Houston, TX, Memphis, TN and Atlanta, GA.

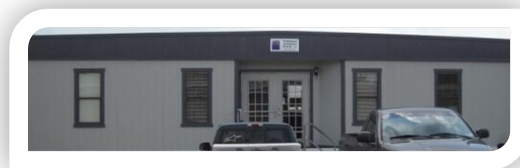

From Alexandria: Take LA-28 W until it ends (45.5mi). Turn left on US-171 (.5mi). Turn right on LA-8/W Texas St/Nolan Trace and continue (5mi). Turn right on Airport Road.

From Leesville: Take US-171 into downtown Leesville. Turn West on LA-8/W Texas St/Nolan Trace and continue (5mi). Turn right on Airport Road.

From Deridder: Take US-171 north and continue (20mi). Turn left on LA-8/W Texas St/Nolan Trace and continue (5mi). Turn right on Airport Road.

Follow Airport Road and turn right where the pavement ends. Enter the FBO and walk through so that you are standing outside by the large hanger on the left. Our building is next to the large hanger on your left.

Nearby Medical Facilities
